

AMENDMENT TO RULES COMMITTEE PRINT

117-31

OFFERED BY MR. AUCHINCLOSS OF

MASSACHUSETTS

Page 415, line 9, strike “support for biomanufacturing testbeds” and insert “support for a national network of testbeds based on open standards, interfaces, and processes”.

Page 430, strike lines 10 through 15 and insert the following (and redesignate the succeeding subparagraphs accordingly):

1 (A) advance the development of standard
2 reference materials and measurements, includ-
3 ing to promote interoperability between new
4 component technologies and processes for engi-
5 neering biology and biomanufacturing discovery,
6 innovation, and production processes;

7 (B) create new data tools, techniques, and
8 processes necessary to advance engineering biol-
9 ogy and biomanufacturing;
