AMENDMENT TO THE RULES COMMITTEE PRINT
118–10
OFFERED BY MS. BARRAGÁN OF CALIFORNIA

At the end of subtitle B of title III, insert the following:

SEC. ___ . PROGRAM TO PROCURE ZERO EMISSION FIRE AND EMERGENCY SERVICE VEHICLES FOR USE AT CERTAIN MILITARY INSTALLATIONS.

(a) In General.—The Secretary of Defense, in coordination with each Secretary of a military department, and in consultation with the Secretary of Energy, shall carry out a program to procure eligible zero emission vehicles for use at each military installation selected pursuant to subsection (b).

(b) Selection of Military Installations.—

(1) In General.—Not later than 180 days after the date of the enactment of this Act, each Secretary of a military department shall—

(A) select not fewer than three military installations under the jurisdiction of that Secretary for participation in such program; and

(B) submit to the Secretary of Defense and the appropriate congressional committees
an identification of each such military installation.

(2) PRIORITY.—In selecting military installations under paragraph (1), each Secretary of a military department shall prioritize military installations at which—

(A) covered infrastructure exists onsite or in close proximity to the installation, as determined by the appropriate Secretary after considering—

(i) existing electric loads at the applicable military installation;

(ii) the capacity of such covered infrastructure to charge or fuel eligible zero emission vehicles;

(iii) the availability of adequate space at the applicable military installation for vehicles awaiting access to applicable charging or fueling stations during peak usage times; and

(iv) any upgrades to such covered infrastructure the appropriate Secretary determines would be necessary if the applicable military installation were selected under such paragraph;
(B) the future inclusion of covered infra-
structure is feasible and cost effective, as deter-
mined by the appropriate Secretary; and

(C) a project authorized under the “En-
ergy Resilience and Conservation Investment
Program” of the Department of Defense that
the appropriate Secretary determines is relevant
to the program described in subsection (a)—

(i) has been conducted; or

(ii) is included in a future-years de-
finite program submitted under section
221 of title 10, United States Code.

(e) Report on Program Strategy.—Not later
than one year after the date on which each Secretary of
a military department submits the identification under
subsection (b)(1)(B), each such Secretary shall submit to
the appropriate congressional committees a report on the
strategy for—

(1) the implementation of such program at each
military installation under the jurisdiction that Sec-
retary selected pursuant to subsection (b); and

(2) the maintenance on such military installa-
tions of charging stations and covered infrastructure
for eligible zero emission vehicles.
(d) **Final Deadline for Procurement.**—Beginning not later than January 1, 2028, all covered vehicles procured for use at each military installation selected for participation in the program under subsection (a) shall be eligible zero emission vehicles.

(e) **Definitions.**—In this section:

1. The term “appropriate congressional committees” means the Committees on Armed Services of the House of Representatives and the Senate.

2. The term “charging station” means a station that contains one or more ports that supply electricity to one eligible zero emission vehicle at a time.

3. The term “covered infrastructure”—

   (A) means infrastructure that the Secretary of Defense determines may be used to—

   (i) charge or fuel eligible zero emission vehicles; or

   (ii) support the charging or fueling of such vehicles, including by supporting the resilience of electric grids or other systems for delivering energy to such vehicles, including through the mitigation of electric grid stress; and

   (B) includes—
(i) charging stations;

(ii) batteries;

(iii) battery-swapping systems;

(iv) microgrids;

(v) electric wiring;

(vi) off-grid charging systems; and

(vii) other apparatuses installed for

the specific purpose of delivering energy to

an eligible zero emission vehicle or to a

battery intended to be used in such a vehi-

cle.

(4) The term “covered vehicle” means a De-

partment of Defense vehicle suitable for use in pro-

viding fire and emergency medical services on a mili-

tary installation.

(5) The term “eligible zero emission vehicle”

means a vehicle suitable for use in providing fire and

emergency medical services on a military installation

that produces zero exhaust emissions of any criteria

pollutant, precursor pollutant, or greenhouse gas,

other than water vapor, in any mode of operation or

condition.

(6) The term “micogrid” means a group of

interconnected loads and distributed energy re-

sources within clearly defined electric boundaries
that acts as a single controllable entity with respect
to the electric grid.

(7) The term “military installation” has the
meaning given such term in section 2801 of title 10,
United States Code.

(8) The term “Secretary of a military depart-
ment” means—

(A) the Secretary of the Army;

(B) the Secretary of the Navy;

(C) the Secretary of the Air Force; and

(D) the Secretary of Homeland Security.
