“, as determined under subsection (h).

“(h) Finding of Public Interest.--The Secretary of Energy may find that proposed exportation of natural gas for which an application is submitted under subsection (g) will be consistent with the public interest under such subsection only if the Secretary of Energy determines that the proposed exportation of natural gas will not be likely to—

“(A) significantly contribute to climate change, including by slowing the global energy transition needed to achieve deep reductions of global greenhouse gas emissions within the next decade and net-zero global greenhouse gas emissions not later than 2050;

“(B) materially increase energy prices or energy price volatility for any segment of United States consumers; or

“(C) create a disproportionate cumulative burden of adverse human or environmental impacts on rural, low-income, minority, and other vulnerable communities.”
