

**AMENDMENT TO RULES COMMITTEE PRINT 118-**

**10**

**OFFERED BY MR. WALTZ OF FLORIDA**

At the appropriate place in subtitle F of title XXVIII, insert the following:

1 **SEC. 28\_\_ . INCORPORATION OF CYBER SUPPLY CHAIN**  
2 **RISK MANAGEMENT TOOLS AND METHODS IN**  
3 **THE ENERGY PERFORMANCE MASTER PLAN.**

4 (a) IN GENERAL.—Section 2911 of title 10, United  
5 States Code, is amended—

6 (1) in subsection (e), by adding at the end the  
7 following new paragraph:

8 “(16) The use of cyber supply chain risk man-  
9 agement tools and methods for continuous analysis,  
10 monitoring, and mitigation of cyber risk.”; and

11 (2) by adding at the end the following new sub-  
12 section:

13 “(k) CYBER SUPPLY CHAIN RISK MANAGEMENT  
14 TOOLS AND METHODS.—(1) In incorporating cyber sup-  
15 ply chain risk management tools and methods in the en-  
16 ergy performance master plan under subsection (d), the  
17 Secretary concerned shall—

1           “(A) prioritize the adoption of such tools and  
2           methods that are commercially available;

3           “(B) use existing databases on cyber  
4           vulnerabilities when selecting such tools and methods  
5           for use in energy projects; and

6           “(C) ensure that such tools and methods pro-  
7           vide continuous analysis, monitoring, and mitigation  
8           of cyber risk in energy projects.

9           “(2) In incorporating cyber supply chain risk man-  
10          agement tools and methods under paragraph (1), the Sec-  
11          retary concerned shall incorporate all funding available to  
12          such Secretary for such measures, including funds appro-  
13          priated under section 2914 of this title (commonly re-  
14          ferred to as the ‘Energy Resilience and Conservation In-  
15          vestment Program’).”.

16          (b) REPORT.—Not later than 12 months after the  
17          date of the enactment of this Act, the Secretary of Defense  
18          shall submit to the congressional defense committees a re-  
19          port analyzing the implementation of (a). Such report  
20          shall include the following:

21                 (1) Progress in implementing cyber supply  
22                 chain risk management tools and methods.

23                 (2) An analysis of the implementation of Execu-  
24                 tive Order 14017 titled “America’s Supply Chians”  
25                 (86 Fed. Reg. 11849) and Executive Order 14028

1 titled “Improving the Nation’s Cybersecurity” (86  
2 Fed. Reg. 26633) in projects that receive or will re-  
3 ceive funds under section 2914 of title 10, United  
4 States Code, (commonly referred to as the “Energy  
5 Resilience and Conservation Investment Program”).

6 (3) A description of the execution of cybersecu-  
7 rity recommendations in the February 2022 report  
8 of the Department of Defense titled “Securing De-  
9 fense-Critical Supply Chains”;

10 (4) Progress in using commercially available  
11 cyber supply chain risk management tools and meth-  
12 ods to provide continuous analysis, monitoring, and  
13 mitigation of cyber risk in energy projects.

14 (5) An analysis of the effect of such tools and  
15 methods on energy resilience and energy security on  
16 military installations receiving funding under the  
17 Energy Resilience and Conservation Investment Pro-  
18 gram.

19 (6) Recommendations and best practices for im-  
20 plementing such tools and methods on military in-  
21 stallations.

22 (7) Recommendations on implementation of  
23 such tools and methods in all energy and infrastruc-  
24 ture programs on military installations that use Fa-  
25 cility Related Control Systems Cybersecurity, ac-

- 1 counting for the effect of such tools on readiness,
- 2 energy security, and energy resiliency.
