11 ices Administration, the Centers for Disease Control  
12 and Prevention, and the National Institutes of  
13 Health, that were distributed to the relevant popu-  
14 lation during the public health emergency, including  
15 methods of dissemination.

16           (6) An analysis of the utilization of recovery  
17 services and barriers to access the services at the  
18 Veterans Health Administration and the Military  
19 Health System by different modes of delivery, such  
20 as telehealth, inpatient, outpatient, intensive out-  
21 patient, and residential services, during the public  
22 health emergency.

23           (7) Identification of key areas in which relevant  
24 Federal agencies can improve their pandemic re-  
25 sponse as it relates to substance use disorders and

1 overdoses among the relevant population, including  
2 steps that can be taken to improve the preparedness  
3 of the agencies for future public health emergencies  
4 declared by the Secretary under section 319 of the  
5 Public Health Service Act.

6 (b) REPORTS.—

7 (1) INTERIM REPORT.—Within 120 days after  
8 the COVID-19 public health emergency ends, the  
9 Secretaries shall submit to the appropriate commit-  
10 tees an interim report that contains an update on  
11 the status of the study required by subsection (a).

12 (2) FINAL REPORT.—Not later than 2 years  
13 after the COVID-19 public health emergency ends,  
14 the Secretaries shall submit to the appropriate com-
