

Whereas, the Small Refinery Exemption releases small refineries from compliance with the Renewable Fuel Standard mandate during a given compliance period to alleviate disproportionate economic hardship

Whereas, all refiners in Wyoming produce under 75,000 barrels per day and meet the current definition of a small refinery

Whereas, amendments to the Small Refinery Exemption, including a modification of the of the small refinery definition, will disadvantage refineries in Wyoming

Whereas, past losses of the small refinery exemption contributed to the closure of refineries in Wyoming and the loss of nearly 200 jobs which never returned

Resolved, that the House of Representatives –

1. Rejects policies to harm small refineries in the United States
2. Commits to an energy dominance agenda that supports all American energy producers who produce reliable, affordable energy
