

Amendment to H.R. 8469

Offered by Mr. Tran of California

Insert, at the appropriate place in the bill, the following:

Sec. _____. When determining the disability rating of a veteran, the schedule of ratings adopted and applied shall be constructed to discount the beneficial effects of medication or treatment, when evidence can be used to establish a baseline without those beneficial effects. This construction shall not be construed to preclude a veteran from seeking compensation from medication or treatment for an underlying injury suffered or disease contracted in line of duty, or for aggravation of a preexisting injury suffered or disease contracted in line of duty, in the active military, naval, air, or space service.
