AMENDMENT TO RULES COMMITTEE PRINT 117–54

OFFERED BY MR. KHANNA OF CALIFORNIA

Page 971, strike lines 1 through 8, and insert the following new subparagraphs (and redesignate the subsequent subparagraph accordingly):

(F) An identification of any challenges in establishing an integrated air and missile defense architecture with specified foreign partners, including assessments of—

(i) the capacity of specified foreign partners to—

(I) rapidly share and respond to intelligence on ballistic and cruise missiles, manned and unmanned aerial systems, and rocket attacks from Iran, and their ability to develop such capacity independent of direct United States support and oversight;

(II) independently operate key technical components of such an architecture, including satellite sensors,
ground- or sea-based radars, and
interceptors; and

(III) operate command and con-
trol centers directing the operation of
such an architecture; and

(ii) the efficacy and vulnerabilities of
a possible integrated regional missile de-
defense system in countering modern ballistic
and cruise missiles.

(G) An assessment of the overall cost to
the United States for providing support for the
establishment and sustainment of such an ar-
chitecture over 5, 10, and 20-year periods.

(H) A description of relevant coordination
with the Secretary of State and the ways in
which such an architecture advances United
States regional diplomatic goals and objectives,
including assessments of—

(i) the impacts of such coordination
on—

(I) diplomatic efforts to prevent
Iran from obtaining a nuclear weapon;

(II) diplomatic discussions be-
tween Saudi Arabia and Iran; and
(ii) the impacts of United States investments of funds, materiel, and personnel into such an architecture on a broader strategic pivot to the Asia-Pacific region.
