AMENDMENT TO
RULES COMMITTEE PRINT 116–54
OFFERED BY MR. LAMB OF PENNSYLVANIA

At the end of title III of division G, add the following subtitle:

Subtitle E—Ohio River Basin

SEC. 33501. INTERAGENCY PLAN.

(a) In General.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Army, acting through the Chief of Engineers, in coordination with the head of each agency described in subsection (d), shall develop and issue an interagency plan for the agencies described in subsection (d) to assist States, Indian tribes, and communities in the Ohio River Basin in preparing for, and responding to, the effects of climate change, including by—

(1) informing such States, Indian tribes, and communities of existing Federal resources available to such States, Indian tribes, and communities, based on the analysis described in subsection (b)(2); and

(2) providing assistance through the Environmental Protection Agency’s Smart Growth Program,
the Federal Emergency Management Agency’s Pre-
Disaster Mitigation Grant Program, the Department
of Housing and Urban Development’s Community
Development Block Grant program, the Economic
Development Administration of the Department of
Commerce, and the Department of Agriculture, to
such States, Indian tribes, and communities to help
them prepare for extreme weather, major floods, ris-
ing temperatures, and potential economic losses
from such threats.

(b) DEVELOPMENT.—In developing the interagency
plan under subsection (a), Secretary of the Army, acting
through the Chief of Engineers, in coordination with the
head of each agency described in subsection (d), shall—

(1) consult with States, Indian tribes, and com-
munities in the Ohio River Basin that may be af-
fected by climate change; and

(2) include in such interagency plan—

(A) identification of the particular needs of
such States, Indian tribes, and communities in
order for such States, Indian tribes, and com-
munities to adequately prepare for, and respond
to, the effects of climate change; and

(B) an analysis of—
(i) the availability of existing and potential Federal resources, including programs, grants, loans, and other assistance, that the agencies described in subsection (d) may provide to assist States, Indian tribes, and communities in the Ohio River Basin in preparing for, and responding to, the effects of climate change (including assistance in building or modernizing infrastructure), including—

(I) Corps of Engineers resources related to—

(aa) modernizing and hardening levees, floodwalls, and flood control projects for more extreme weather flooding events;

(bb) restoring wetlands so that such wetlands may absorb rain;

(cc) reconnecting floodplains to rivers in order to allow for natural flood storage;

(dd) developing a basin-wide water management plan, in collaboration with the Department
of Agriculture, Tennessee Valley Authority, and water management agencies of the States in the Ohio River Basin; and

(ee) updating and modernizing operations manuals for dams and reservoirs operated by the Corps of Engineers to account for future water risks, precipitation, flow patterns, and usage;

(II) Environmental Protection Agency resources and Department of Agriculture resources related to modernizing drinking water and wastewater treatment and stormwater management;

(III) Department of Transportation resources related to raising or hardening critical transportation infrastructure that may be vulnerable to flooding;

(IV) United States Geological Survey resources and Environmental Protection Agency resources related to
water quality and flow discharge monitoring and modeling; and

(V) Federal Emergency Management Agency resources related to updating and modernizing flood hazard maps to incorporate the latest science and future risk projections; and

(ii) the limitations of existing Federal resources that the agencies described in subsection (d) may so provide, including—

(I) the limitations of such resources in meeting the particular needs of such States, Indian tribes, and communities identified under subparagraph (A); and

(II) recommendations—

(aa) for Congress regarding any statutory changes regarding existing Federal programs, or additional Federal funding, that the agencies determine are necessary to assist such States, Indian tribes, and communities in preparing for, and responding to, the effects of climate change; and
(bb) for additional Federal, State, and local resources that the agencies determine are necessary to so assist such States, Indian tribes, and communities.

(c) Publication and Implementation.—

(1) Publication.—Upon issuance of the interagency plan developed under subsection (a), the plan shall be published on the public internet website of—

(A) the Environmental Protection Agency;

(B) the Assistant Secretary of the Army for Civil Works; and

(C) the Great Lakes and Ohio River Division of the Corps of Engineers.

(2) Deadline.—Not later than 30 days after the interagency plan developed under subsection (a) is issued, each head of an agency described in subsection (d) shall implement such interagency plan.

(3) Technical Assistance.—In implementing the interagency plan developed under subsection (a), the heads of the agencies described in subsection (d) shall provide technical assistance and expertise to States, Indian tribes, and communities in the Ohio River Basin.
(d) AGENCIES DESCRIBED.—The agencies described in this subsection are as follows:

(1) The Corps of Engineers.
(2) The Environmental Protection Agency.
(3) The National Oceanic and Atmospheric Administration.
(4) The Department of the Interior.
(5) The Department of Agriculture.
(6) The Department of Transportation.
(8) The United States Geological Survey.
(9) The Department of Housing and Urban Development.
(10) The Department of Commerce.

SEC. 33502. REPORT ON IMPACTS OF CLIMATE CHANGE ON ELECTRIC UTILITIES.

Not later than 90 days after the date of enactment of this Act, the Secretary of Energy shall publish, on the public internet website of the Department of Energy, a report that includes—

(1) an analysis of—

(A) the potential vulnerabilities of electric utilities that are located in, or serve electric
consumers in, the Ohio River Basin, to climate change and extreme weather; and

(B) the impacts of climate change and extreme weather on such electric utilities; and

(2) recommendations and technical assistance, as appropriate, to assist such electric utilities in preparing for climate change and extreme weather.

SEC. 33503. DEFINITION.

In this subtitle, the term “Ohio River Basin” means the Ohio River Basin as identified in the Corps of Engineers’ study titled “Ohio River Basin-Formulating Climate Change Mitigation/Adaptation Strategies through Regional Collaboration with the ORB Alliance” (May 2017).
