6 **TAGED.**

7 It is the sense of Congress that the people of the  
8 United States should keep our promise to parents, chil-  
9 dren, and teachers by significantly increasing funding for  
10 title I of the Elementary and Secondary Education Act  
11 of 1965 (20 U.S.C. 6301 et seq.) in a fiscally responsible  
12 manner in order to ensure that every child, without regard  
13 to the geographic location of the child's home, has access  
14 to a quality education, and to reverse decades of depriving  
15 our Nation's most vulnerable schools of the resources they  
16 need to set their students up for success.
