

**AMENDMENT TO MILITARY CONSTRUCTION AND  
VETERANS AFFAIRS  
OFFERED BY MR. WITTMAN OF VIRGINIA**

At the end of title I, add the following:

1       SEC. \_\_\_\_\_. The Committee notes with great con-  
2 cern potential building requirements outside the scope of  
3 Congressional approval by the United States Army Corps  
4 of Engineers (“Corps”) at a SOF 21 STS Operations fa-  
5 cility at Fort Bragg, North Carolina. Specifically, the  
6 Committee recognizes that legitimate questions exist as to  
7 whether enhanced Anti-Terrorism Force Protection  
8 (ATFP) work being directed to be included by the Corps  
9 on this project is appropriate. Therefore, the Committee  
10 directs the Corps to immediately stop all ongoing work  
11 and expenditure of funds related to this facility until it  
12 is determined that the ATFP work is not outside the DD  
13 Form 1391 authorized scope and funding appropriated for  
14 this project.
