AMENDMENT TO RULES COMMITTEE PRINT 117–31

OFFERED BY MS. MATSUI OF CALIFORNIA

Page 800, after line 2, insert the following:

SEC. 20303. STUDY ON ENERGY CONSERVATION STANDARD FOR OVERHEAD ELECTRICITY CONDUCTORS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall conduct a study regarding the environmental, economic, and renewable energy deployment benefits of establishing an energy conservation standard for overhead electricity conductors under title III of the Energy Policy and Conservation Act (42 U.S.C. 6291 et seq.).

(b) CONTENTS.—In carrying out the study under this section, the Secretary shall examine—

(1) whether establishing an energy conservation standard for overhead electricity conductors would—

(A) reduce line losses and associated emissions;

(B) expedite the deployment of additional transmission capacity to clear interconnection queues and accommodate additional renewable capacity on the electric grid;
(C) reduce transmission line sagging in wildfire-prone regions; and

(D) reduce permitting timelines for adding new transmission capacity to the electric grid; and

(2) any additional matters the Secretary determines appropriate.

(c) COORDINATION.—The Secretary shall coordinate with the Federal Energy Regulatory Commission in carrying out the study under this section.

(d) REPORT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress, and make public, a report containing the results of the study conducted under this section.
