

Description: This amendment will expand TriCare medical coverage for the spouses of military members who were killed in combat (Gold Star Spouses) and for the spouses of military members who were killed in military training accidents. Currently, Gold Star Spouses and spouses of service members killed in training accidents lose their TriCare coverage upon being remarried. This amendment will ensure Gold Star Spouses and spouses of service members killed in training accidents to retain TriCare coverage regardless of marriage status after the death of their service member spouse.
