AMENDMENT TO RULES COMMITTEE PRINT 118–10
OFFERED BY MR. DONALDS OF FLORIDA

At the end of subtitle C of title XXXI, insert the following:

SEC. 31. DIRECTOR OF NAVAL PROPULSION PROGRAM
LISTENING SESSION ON NUCLEAR TECHNOLOGY.

(a) FINDING.—Congress finds that since 1954, the Naval Nuclear Propulsion Program has maintained and operated more than 100 naval nuclear reactors, services and supplied by thousands of American workers, to power United States aircraft carriers, submarines, and other military vessels.

(b) LISTENING SESSION.—As soon as practicable, the Director of the Naval Propulsion Program, in coordination with the Secretary of Energy, shall host a confidential listening session with the Armed Forces and nuclear stakeholders that hold either C, Q, or L access authorizations (clearance). In the listening session, the Director shall share the lessons learned by the Naval Propulsion Program with other Armed Forces and stakeholders to familiarize them with nuclear technology and generate innova-
tive ideas to use already-established designs, methods, and resources to ultimately assist the Armed Forces in adopting and embracing advanced nuclear technology to assist with future military operations and to alleviate logistical constraints.
