

**AMENDMENT TO**  
**RULES COMMITTEE PRINT 115-39**  
**OFFERED BY MR. POLIS OF COLORADO**

At the end, add the following:

1 **TITLE VI—SENSE OF CONGRESS**  
2 **REGARDING CARBON FEE**

3 **SEC. 6001. SENSE OF CONGRESS REGARDING CARBON FEE.**

4 It is the sense of the Congress that:

5 (1) A carbon fee should be used as a funding  
6 mechanism for any tax reform legislation.

7 (2) Carbon price proposals have the potential to  
8 generate two trillion dollars over ten years.

9 (3) A carbon pricing mechanism that delivers  
10 maximum benefits to low and middle-income fami-  
11 lies, and complements sustained support for energy  
12 innovation, will allow for a more rapid and equitable  
13 transition to a clean energy economy. This is a crit-  
14 ical step for our nation’s health, and to ensure a  
15 sustainable and strong energy and economic future.
