1           mary materials is derived from Federal or  
2           non-Federal land.

3                   “(iv) Biomass materials obtained from  
4           Federal land that—

5                           “(I) are not harvested from old  
6                           growth stands, unless the old growth  
7                           stand is part of a science-based eco-  
8                           logical restoration project authorized  
9                           by the Secretary of Agriculture or the  
10                          Secretary of the Interior, as applica-  
11                          ble, that meets applicable protection  
12                          and old growth enhancement objec-  
13                          tives, as determined by the applicable  
14                          Secretary;

15                           “(II) are slash, precommercial  
16                          thinnings, or derived from ecological  
17                          restoration activities;

18                           “(III) are harvested in a manner  
19                          consistent with applicable Federal  
20                          laws (including regulations) and land  
21                          management plans; and

22                           “(IV) are derived within—

23                                   “(aa) the wildland-urban  
24                                   interface (as defined in section  
25                                   101 of the Healthy Forests Res-

1                   toration Act of 2003 (16 U.S.C.  
2                   6511)) from acreage included  
3                   within a community wildfire pro-  
4                   tection plan (as so defined);

5                   “ (bb) a priority area on  
6                   Federal land, as identified by the  
7                   Secretary of Agriculture or the  
8                   Secretary of the Interior, as ap-  
9                   plicable, in need of—

10                   “ (AA) ecological res-  
11                   toration;

12                   “ (BB) an authorized  
13                   hazardous fuels reduction  
14                   project under section 102 of  
15                   the Healthy Forests Res-  
16                   toration Act of 2003 (16  
17                   U.S.C. 6512); or

18                   “ (CC) a project carried  
19                   out under section 602(d) of  
20                   that Act (16 U.S.C.  
21                   6591a(d)); or

22                   “ (cc) an area identified as a  
23                   priority area for wildfire threat in  
24                   a State-wide assessment and  
25                   State-wide strategy developed in

1 accordance with section 2A of the  
2 Cooperative Forestry Assistance  
3 Act of 1978 (16 U.S.C.  
4 2101a).”.
